

TILT / VENTILATION POSITION

For ventilation in tilt position
handle should point straight up
(12:00 o'clock)

LOCKED POSITION

Handle should point down
(6:00 o'clock)

MAINTENANCE & CLEANING POSITION

With sash closed, point handle to
horizontal position (3:00 or 9:00 o'clock)
and swing sash in for cleaning.

NOTE: Do not turn handle up while sash is in the
maintenance position.
